Coming in January 2019

OptiPlex for education

OptiPlex Micro or Small Form Factor with All-in-One Stand

An affordable, space-saving design pairs effortlessly with an existing monitor. Tool-free maintenance, single security cable lock and integrated cable management make this setup incredibly easy to manage or even relocate.

Built for STEAM Labs

OptiPlex All-in-One with Height Adjustable Stand

A powerful, reliable all-in-one that increases productivity without sacrificing valuable workspace. An articulating stand lays the monitor almost flat and lets you interact with an optional touch screen.

Built for Interactive Learning Spaces

Intel Unite® powered by OptiPlex 7060 Micro, paired with a Dell Large Format Display or Projector

Delivers a larger screen and more powerful performance for students to create and excel using STEAM apps.

Built for Interactive Classrooms

Education Accessories

Dell Mobile Computing Cart

DELL INTERACTIVE CONFERENCE ROOM MONITOR | C7017T

The ideal large, interactive touch monitor is built for collaboration in learning environments.

DELL WIRELESS MOUSE: WM126

Stay on the move with a compact wireless mouse with optical tracking. Features long battery life and choice of colors for active learners

DELL COMPACT CHARGING CART | 36 DEVICES

This space-saving cart makes it easy to charge and store up to 36 systems at once.

DELL EDUCATION CASES

Made for Education, protective sleeves, backpacks provide a custom layer of protection to devices for wherever learning happens.
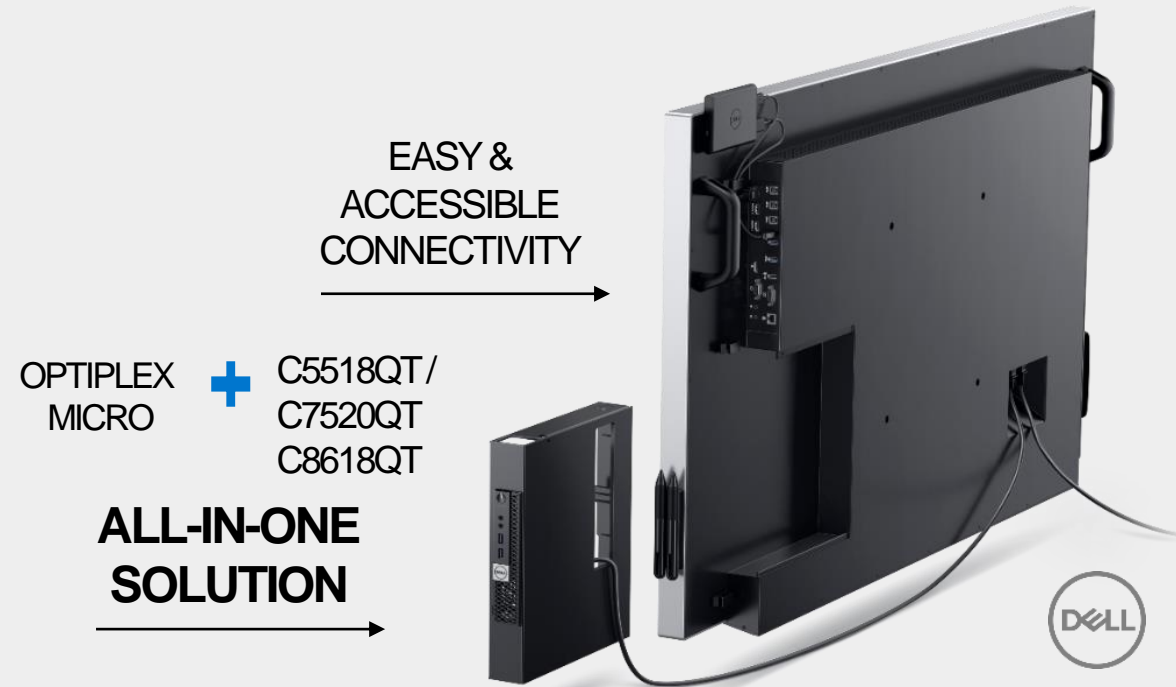

Dell Large Format Monitors

Amazing image quality and cutting edge collaboration features.

- Intuitive, easy to use design

- 10 to 20 points of simultaneous touch

- Full HD & 4K resolution

- Software and Hardware agnostic

- Enabled for remote management

- Wireless presentation solutions

Connect. Present. Collaborate.
